

SCHOOL OF NURSING

Use of Student Work for Teaching/Learning Purposes

On occasion, the School of Nursing may want to use the work of individual students (such as a paper/assignment or a learning contract) as a way of sharing our curriculum and grading practices to external review and accreditation teams.

By signing below, I consent to the sharing of my student work. I understand that the work will only be used by the School of Nursing for teaching and learning purposes. I understand the work may be scanned and uploaded to a secure virtual platform (such as one drive) to be viewed only by students, faculty, and accreditation team members.

I agree that my consent to share is freely given. I confirm that this form has been explained to me in terms I understand. I understand that I may withdraw consent at any time before, during or after sharing. I further understand that refusal to consent to recording, or withdrawal of my consent, will not affect the education I will receive.
